SUMMARY

Experienced ReactJS front-end developer with 3+ years, skilled in HTML, CSS, JavaScript, and third-party REST API integration. Proficient in Agile Scrum, ensuring successful project management and outcomes.

TECHNICAL SKILLS

LANGUAGES : HTML, CSS, JavaScript, TypeScript

LIBRARY : ReactJS, Redux, BaseWeb, GraphQL, Jest, Playwright

DEVELOPER TOOLS : VS Code, Android Studio, Git

EXPERIENCE

NINELEAPS

Jan 2022 - present

Software Developer (Aug 2022 - present)

- Led a **four-member frontend team** with **100% sprint success** and zero major post-release bugs.
- Improved component reusability and reduced **code redundancy by 30%** using Monorepo architecture. the **full SDLC lifecycle**, cutting **defect leakage by 25%** through rigorous peer reviews.
- Recognized with **5 “Feather on the Hat” awards** and the **Rising Star Award** for excellence in project delivery.

Software Developer Intern (Jan 2022 - Aug 2022)

- Quickly learned core web technologies, making significant contributions to project success.
- Maintained high code quality via reviews, ensuring adherence to best practices, fostering robust development.
- Following **Agile methodologies**, contributed to a **12% faster release cycle.**, improving efficiency and reducing errors.
- Completed work **25% ahead of schedule** while managing dual responsibilities.

PROJECTS

Uber

Aug 2024 - present

Platform to send questions and collect user responses for use by AI models

- Built a scalable gig platform in React, TypeScript, GraphQL to handle **10,000+ concurrent users**.
- Built dynamic **quiz modules** supporting multiple question types and addressing **state persistence**.
- Enhanced UI/UX with advanced styling using **BaseWeb**, ensuring **responsiveness**.
- Achieved **96% test coverage** using **Jest** and **React Testing Library**, ensuring high app reliability post-deployment.
- Wrote comprehensive **integration test cases** for the application to ensure seamless end-to-end functionality.

Yuva Health

Jul 2022 - Jul 2024

Cross-platform web system collaborates to launch India's first Cashless OPD nationwide.

- Played a pivotal role across **grooming, prototyping, feasibility, design, implementation, and testing**, ensuring high-quality deliverables and project success.
- Crafted and implemented an responsive web interface, including an **admin dashboard**.
- Executed key flows like cart and login, leading to **15% more user engagement** and **17% lower checkout abandonment**.
- Collaborated on diverse platforms, seamlessly integrating APIs, supporting **3K+ daily active users**.

Event Finda

Jan 2022 - Aug 2022

Web platform facilitating smooth event planning for various scales, streamlining processes and efficiency.

- Integrated **Razorpay** and **Google OAuth**, reducing **drop-off by 20%**.
- Used **Google Maps** and **QR APIs** to enhance event tracking, streamlined ticket validation and reducing check-in time.
- Achieved **90%+ code coverage** using **Jest** and **Enzyme**, preventing major bugs in production.
- Developed **data visualizations** to help event organizers with tracking and insights.

EDUCATION

GRAPHIC ERA HILL UNIVERSITY

Aug 2018 - Aug 2022

Bachelor of Technology in Computer Science - 8.4 CGPA
